Date: 12/06/2020

NOTICE

Keeping in view of unrelenting conditions of COVID-19 lockdown and future prospects of the B.Tech. students of NIT Andhra Pradesh, it has been decided to conduct the end semester examinations in online mode using Multiple Choice Questions(MCQ). The weightages for internal and external exams are also rescaled due to the above reasons. The internals, mid-semester and final exams now carry weights of 35, 40, and 25 respectively for a total of 100 marks. The II and III year B.Tech. students of all branches of NIT Andhra Pradesh are hereby informed that the end semester examinations of even semester, AY-2019-2020, will be commencing from 29th June, 2020. The duration of the examination will be for 1 hour. The management of NIT Andhra Pradesh is completely aware and compassionate of the difficulties faced by the students in these testing times. The management further appeals the student fraternity to support the administration towards achieving the collective goal that has been set for brighter future. In case any student misses the online end semester examinations for any reason, he will be allowed to attend the makeup examination for 50 marks in conventional mode, which will be conducted when the institute reopens (where in the student has to physically appear for the corresponding examinations). Considering the numerous representations given by students of II and III year B.Tech. the mode of examination is kept simple and minimal in terms of network bandwidth consumption, (Infact, it has been tested successfully during the recently conducted IV year examinations with zero issues of network failure). We wish you all the best for your upcoming examinations and brighter careers ahead.

Instructions for attending the online examinations

1. The students can use laptop/smart phone to write the online examination. The students should ensure internet connectivity during the course of the examination. In case of network difficulties, students are advised to move to nearby suitable places where internet facility is available.

TADEPALLIGUDEM– 534101, WEST GODAVARI DIST., ANDHRA PRADESH, INDIA.

2. Every student should have a valid institute email-id/password for attending the online examinations. For any issues related to email id, contact the web team on or before **23/06/2020**. Do not share the login credentials with anyone.
3. Attendance will be recorded 15 minutes before the commencement of the examination. The student has to confirm his/her identity through google meet link shared with respective email-ids. The disbursement of question paper will be done only to the candidates who have confirmed their identity.
4. The examination question paper is made available through google form which will be shared to the respective email-ids at the announced time slot (refer examination time-table). Note that the google form allows submission from verified email-ids only.
5. Students should verify their answers before pressing the final submit button at the end. Each student can submit only once. After submit button is pressed, no modifications are allowed.
6. A team will be working from exam section to address any of the exam related student issues during the course of examination. The helpline numbers will be circulated soon.
7. All the students must appear for the mock-drill conducted by exam-section between 24-06-2020 to 26-06-2020. The exact dates and timings of the mock-sessions will be announced through a notice in the Institute web-site and time-to-time information from respective HODs.
